Choose one of the topics below and write a response of no more than 750 words. Your essay must be typed.

1. A big investor has come to your community. He is interested in relocating his corporate headquarters to your town which will bring 500 new jobs to the area. After meeting with county officials, real estate agents, contractors and many civic leaders, he has decided that he wants to hear from the area's young people. Therefore, write a letter to 'Mr. Jones' telling him your own thoughts about why your community needs his business and why his business needs your town.
2. A cooperative is a not for profit business organization owned and operated by a group of individuals for their mutual benefit. Co-ops are democratically controlled by members voluntarily united to meet a common economic, social and/or cultural need such as the need for electric or telephone service in rural areas. Other examples include food, housing and childcare co-ops. Identify a need in your community or school that would lend itself to the formation of a cooperative. Why do you think the need is not currently being met? Why is the need important to your community? Explain how you would go about attracting members to join your cooperative. In other words, sell us on your proposed cooperative.
